

**Rolling Advertisement No. L-10/25-26
Assistant Professor Eligibility Criteria**

Sr. No.	Academic Unit	Eligibility Criteria for Assistant Professor
1	Aerospace Engineering	<p>Candidates should preferably hold an undergraduate/post graduate degree in Aerospace/Aeronautical Engineering. Further, candidates should have completed a Ph.D. in the advertised areas of specialization.</p> <p>Candidates who do not have a Ph.D. in the advertised areas of specialization but have a minimum of two years of postdoctoral research experience in the advertised areas of specialization may also be considered.</p> <p>Candidates should have a minimum of FIVE (5) publications in reputed refereed journals and conference proceedings at the time of the application, of which at least THREE (3) should be in Scopus/SCI-indexed journals. Industry experience will be appropriately evaluated.</p>
2	Biosciences & Bioengineering	<p>Candidates with research work in biosciences should have a minimum of FIVE (5) original refereed international publications in Scopus / PubMed / Web of Science (or equivalent) indexed journals as first author or as first author with equal contribution.</p> <p>Candidates with research work in biomedical engineering should have a minimum of THREE (3) original refereed international publications in Scopus / PubMed /Web of Science (or equivalent) indexed journals as first author or as first author with equal contribution.</p> <p>A granted patent may be considered as equivalent to an original research publication in Scopus (or equivalent) indexed journals.</p> <p>A full paper in an international peer-reviewed conference proceeding of a reputed professional society may be considered as equivalent to an original research publication in Scopus (or equivalent) indexed journals.</p> <p>Development efforts (technology, product, process, protocols, etc.) that have reached a stage of maturity viz., peer-reviewed demonstration of proof-of-concept e.g., in the form of acceptance by a funding agency or an industry for enhancement of Technology Readiness Level (TRL), deployment, etc., may be considered as equivalent to an original research publication in Scopus (or equivalent) indexed journals.</p>
3	Chemical Engineering	<p>(A) Candidates working in the broad research areas related to chemical engineering and having at least one degree in Chemical Engineering (UG/PG/Ph.D.) will be considered. Candidates without a degree in Chemical Engineering will be considered only in exceptional cases, provided their primary research aligns with one</p>

Sr. No.	Academic Unit	Eligibility Criteria for Assistant Professor
		<p>of the designated sub-areas (a, b, etc.) within the six broad research areas of Chemical Engineering and are able to teach courses considered integral to the discipline - Chemical Engineering Thermodynamics, Chemical Reaction Engineering, Introduction to Transport Phenomena, and Introduction to Numerical Analysis.</p> <p>(B) Candidates should also have a minimum of THREE (3) research publications in reputed journals included in Scopus/SCI index in areas related to Chemical Engineering.</p>
4	Chemistry	<p>Candidates should have a basic degree in Chemistry, should have a minimum of FIVE (5) publications in Scopus/SCI indexed internationally reputed journals, out of which at least TWO (2) publications must originate from post Ph.D. work.</p>
5	Civil Engineering	<p>The candidates should have a strong academic and research background with Ph.D., including a 4-year undergraduate (UG) Degree in Civil Engineering or as specified against the areas of specialization.</p> <p>Candidates should have a minimum of THREE (3) publications in SCI-indexed reputed journals related to the advertised areas. The quality will be evaluated based on SCI Impact Factor (IF) and relative IF ranking in that field of specialization. The papers should be already published or be in the press.</p> <p>Research grants received / Teaching or Industry experience / Significant National or International awards will be considered as an additional advantage.</p> <p>Patents and Books: (a) A granted Patent with the candidate as main contributor will be counted as equivalent to one published journal paper. (b) Textbook / Book chapter published by reputed publisher will be considered as an additional advantage.</p>
6	Computer Science & Engineering	<p>Publications:</p> <p>(1) Candidates should have a minimum of TWO (2) publications during their Ph.D. in reputed (*) conferences or journals in computer science and engineering and related areas, with at least one of these being in a top-tier forum (*).</p> <p>(2) Two (2) granted patents can count as one publication, but papers and patents representing the same work are not double-counted. A maximum of 2 granted patents can be counted as a publication in this manner.</p> <p>(3) Note (*): "Reputed" is defined as rank B or higher either in the Core portal (https://www.core.edu.au/) OR in the Department Publication Ranking List and a suitable addendum/corrigendum that may be required. Further, "top-tier" is defined as rank A or higher in the same lists.</p>

Sr. No.	Academic Unit	Eligibility Criteria for Assistant Professor
		<p>Post-Ph.D. (1) Candidates with research experience after Ph.D. are expected to have correspondingly commensurate higher research achievements in addition to the above requirements. This clause does not apply to those with non-research experience post Ph.D.</p>
7	Earth Sciences	<p>For all positions in Geology (Groundwater Hydrogeology, Engineering Geology, Structural Geology, Mineral Exploration/ Mining Geology, Computational Geosciences, Quantitative Geomorphology, Planetary Geosciences):</p> <p>Essential Qualifications:</p> <p>(a) M.Sc / M.Sc (Tech)/ M.Tech degree in Geology or in any of the fields related to Geology. (b) Ph.D. in the relevant field of Geology</p> <p>Desirable: Experience in running and maintaining relevant equipment, with adequate exposure to experimentation and all aspects of field geology, computation and numerical modelling.</p> <p>ii) For all positions related to Geophysics (Quantitative Seismic Interpretation/Seismic Reservoir Characterization, Petrophysics related to petroleum exploration, Geophysical Modelling, Geophysical Signal Processing) :</p> <p>Essential Qualifications:</p> <p>(a) M.Sc / M.Sc (Tech)/ M.Tech degree in Geophysics or in any of the fields related to Geophysics. (b) Ph.D. in the relevant field of Geophysics.</p> <p>Desirable: Industrial experience in the fields related to petroleum exploration, with experience in quantitative and/or qualitative seismic interpretation. Experience in the application of AI and ML techniques to geophysical applications.</p> <p>iii) For the position related to Mining Engineering (Sustainable mining):</p> <p>Essential Qualifications:</p> <p>(a) B.Tech degree in Mining Engineering. (b) Ph.D. in Mining with specialization in Mine Planning, Mineral Economics, Environmental/Sustainable Mining, and Management.</p> <p>Desirable: Relevant Industrial / Research experience in mine digitalization and automation, mining technology, safety and digital mining are also encouraged.</p> <p>For all above areas of specialization, candidates should have published a minimum of FOUR (4) research papers in SCI-indexed journals in the relevant area of research. The candidate must be one of the first two authors or the corresponding author in all four papers.</p>

Sr. No.	Academic Unit	Eligibility Criteria for Assistant Professor
8	Economics	<p>Consistently good academic performance: PhD, with First Class or equivalent (in terms of Grades etc.), at the preceding degree and a good academic record throughout; candidates must have been awarded the Ph.D. degree at the time of applying.</p> <p>(A) Experience: At least 3 years of Post Ph.D research /teaching /industry experience [including Postdoctoral research experience]. Those who do not have adequate experience, but fulfil the eligibility criteria may be considered for contractual appointment in the rank of Assistant Professor.</p> <p>(B) Performance: Published 3 good papers of which at least two of them should be in reputed peer reviewed journals [Scopus /ABDC/ABS or equivalent ranked/indexed journals].</p>
9	Electrical Engineering	<ul style="list-style-type: none"> ● In areas pertaining to semiconductor devices – their modeling, fabrication and characterization, a minimum of FOUR (4) high quality papers in tier-one SCI journals. ● In other areas like Power, Control, Communications, Circuits and Systems, a minimum of TWO (2) high quality papers in tier-one SCI journals. ● Conference Publications: Top tier conferences, which have a rigorous peer-review process, and in which the full version of the paper has to be submitted right at the stage of review, will also be considered to be equivalent to journal papers. ● Post-Doctoral Experience: It is preferable to have a postdoctoral/industry experience in the relevant areas.
10	Energy Science and Engineering	<p>1. <u>Solar-thermal energy systems</u></p> <p>Essential Qualifications: (a) Bachelor's and Master's Degree in Mechanical or Energy Engineering; (b) Ph.D. in area related to solar-thermal energy systems.</p> <p>Desirable: Combination of experimental and modeling experience is preferred, with emphasis on concentrated solar thermal applications.</p> <p>Publications: Candidates should have a minimum of three (3) publications in Scopus/Web of Science indexed journals in energy science and engineering related areas.</p> <p>2. <u>Energy Policy</u></p> <p>Essential Qualifications: (a) Bachelor's and Master's Degree in Science or Engineering or Economics; (b) Ph.D. in area related to Energy Policy with emphasis on energy supply, demand and consumption; energy scenarios modeling; and technology assessment and forecasting at the national level.</p>

Sr. No.	Academic Unit	Eligibility Criteria for Assistant Professor
		<p>Desirable: Experience in energy scenarios modeling and technology assessment and forecasting; Publications in journals related to energy and energy policy.</p> <p>Publications: Candidates should have a minimum of three (3) publications in Scopus/Web of Science indexed journals in energy science and engineering related areas.</p> <p>3. <u>Recycling of materials</u></p> <p>Essential Qualifications: (a) Bachelor's and Master's Degree in Mechanical or Energy or Chemical or Materials and Metallurgical Engineering; (b) Ph.D. in area related to recycling of materials from end-of-life energy systems-batteries, solar PV panels, wind turbine blades, etc. with focus on experiments.</p> <p>Desirable: Work related to systems level.</p> <p>Publications: Candidates should have a minimum of three (3) publications in Scopus/Web of Science indexed journals in energy science and engineering related areas.</p> <p>Exceptional candidates in all areas relevant to the academic unit will also be considered.</p>
11	Environmental Science and Engineering	<p>The candidate must possess Ph.D. and M.Tech./ M.E./ M.S. with research focus in Environmental Science/ Engineering from reputed Institutes. Also, the candidate should have B.Tech./B.E./B.S. in Environmental/ Civil/ Chemical/ Mechanical Engineering/ Biotechnology and allied disciplines or M.Sc. in Environmental Science and allied disciplines. The candidate who has done a Ph.D. directly after completing B.Tech./B.E./B.S. must have undergone substantial course work in Environmental Science/ Engineering.</p> <p>Candidates should have a minimum of THREE (3) publications in Scopus/SCI index reputed journals.</p> <p>Each patent granted will be considered as equivalent to a quality publication in a reputed international journal.</p>
12	Industrial Engineering and Operations Research (IEOR)	<p>Candidates should have a minimum of THREE (3) publications in reputed journals or refereed conference proceedings in the areas related to industrial engineering or operations research.</p> <p>Journals and conference proceedings listed in Scopus or SCI or CORE or ABDC or AMS MathSciNet will be considered as reputed. Other journals and conference proceedings that are considered as reputed by the department will be listed at www.ieor.iitb.ac.in</p>

Sr. No.	Academic Unit	Eligibility Criteria for Assistant Professor
13	Mathematics	Candidates should have published a minimum of THREE (3) publications in journals listed in AMS MathSciNet in the areas of Mathematics or Statistics.
14	Mechanical Engineering	<p>(i) Candidates should hold an undergraduate degree in engineering (BE/BTech). Further, candidates should have completed PhD in the advertised areas of specialization. Candidates who do not have PhD in the advertised areas of specialization, but have a minimum of two years of postdoctoral research experience in the advertised areas of specialization will also be considered. Candidates without an undergraduate degree in engineering (BE/BTech) will be considered only in exceptional cases, provided they have completed PhD in the advertised areas of specialization and the candidate should be able to teach core courses in mechanical engineering.</p> <p>(ii) Candidate should have published a minimum of three (03) international journal papers as first author. These journals should be ranked in the top two quartiles (Q1 or Q2), as per the SJR (Scimago Journal & Country Rank) norms.</p> <p>(iii) In case a candidate has post-Ph.D experience beyond 3 years, the candidate should have 1 additional publication per year of additional experience beyond 3 years.</p> <p>(iv) Up to one granted patent in areas relevant to the areas of specialization advertised, on which the applicant is named as an inventor, will be treated equivalent to one journal paper.</p>
15	Metallurgical Engineering & Materials Science	<p>(i) Candidates who have degrees other than B.E./B.Tech should have done mathematics courses in their undergraduate or postgraduate or graduate studies.</p> <p>(ii) At least THREE (3) first author research publications in reputed journals included in Scopus/SCI index.</p>
16	Physics	Candidates should have a minimum of THREE (3) publications in Scopus indexed refereed journals in Physics or Astronomy during Ph.D.; Additionally, an average of 1 publication per year in such journals during post-Ph.D. career. Three years of post-Ph.D. experience is preferred.
17	Ashank Desai Centre for Policy Studies	<p>The candidate must have experience in one of the following 6 research areas:</p> <ol style="list-style-type: none"> (1) Digital Societies and Governance (2) Social Policy (with Special Focus on health) (3) Urban Policy (4) Technology and Policy (5) Water, Sanitation, Energy and Climate Change (6) Industrial and Economic Policy <p>Candidates should have a minimum of THREE (3) Policy relevant</p>

Sr. No.	Academic Unit	Eligibility Criteria for Assistant Professor
		<p>publications in Reputed (Scopus/SCI index, JSTOR, Sage, MUSE, ABDC) journals.</p> <p>ONE (1) peer reviewed book chapter/monograph from a reputed publisher can be counted as equivalent to ONE (1) publication.</p>
18	Centre for Climate Studies	<p>Publications criteria: Candidates should have a minimum of 3 publications in Scopus/SCI index journals, as first or second or corresponding author.</p> <p>A maximum of one patent granted could be counted as equivalent to one peer-reviewed journal publication.</p> <p>Others: Have research subject areas strongly aligned with IDPCS's needs. Have the ability to teach core / key courses of the IDPCS.</p>
19	Centre for Defence Technology Innovations and Strategies (CDTIS)	<p>The candidates should have a strong academic and research background in the advertised areas with a Ph.D. degree in STEM.</p> <p>At least 3 years of Post Ph.D research /teaching /industry experience [including Postdoctoral research experience]. Those who do not have adequate experience, but fulfil the eligibility criteria may be considered for contractual appointment in the rank of Assistant Professor.</p> <p>Published at least 3 good papers (as first author) in the areas advertised out of which at least two should be in reputed peer reviewed journals [Scopus /ABDC/ABS or equivalent ranked/indexed journals].</p> <p>For candidates with PhD in Computer Science/Engineering, a minimum of 3 publications (as first author) during their Ph.D. in reputed conferences or journals in computer science and related areas, with at least one of these being in a top-tier forum is required. "Reputed" is defined as rank B or higher and "top-tier" is defined as rank A or higher in CORE portals.</p> <p>Research grants received / Teaching or Industry experience / Significant National or International awards will be considered as an additional advantage.</p> <p>A granted Patent with the candidate as main contributor will be counted as equivalent to one published journal paper.</p> <p>Textbook / Book chapter published by reputed publisher will be considered as an additional advantage.</p>
20	Centre for Educational Technology	<p>Candidates should have a minimum of two Educational Technology related publications in journals indexed in Scopus/SCI, OR</p>

Sr. No.	Academic Unit	Eligibility Criteria for Assistant Professor
		<p>one publication in journals indexed in Scopus/SCI and two publications in the list of conferences identified by the department.</p> <p>The candidate should be the first author on at least ONE (1) of the publications.</p> <p>If Ph.D. is in a discipline other than ET, the candidate should have done a post-doc in ET related area, or should have research publications in ET Journals/Conferences, or should have carried out development projects in ET.</p> <p>Candidates who have one or more years of post-Ph.D. experience should have on an average ONE (1) publication per year of post Ph.D. experience in addition to the above minimum specified; papers published during/based on Ph.D. work can also be counted towards this number.</p> <p>Up to two years of work in industry or other positions that do not offer scope for publication may be exempted from the additional publication requirements.</p>
21	Centre for Machine Intelligence and Data Science (C-MinDS)	<p>Publications: Candidates should have published a minimum of 3 papers in reputed journals or conferences. For example, publications ranked at least A as per CORE Rankings will be considered as reputed. For candidates specializing in application of AI/ML in Engineering and Science, reputed journals from their areas will be determined in consultation with experts in that specialization.</p> <p>Additionally, the candidates are expected to have at least one publication in reputed venues per year of post Ph.D. experience. Up to 8 years of work in industry or other circumstances which do not offer scope for publication may be exempted from the additional publication requirements. In such cases, the candidate is expected to provide significant alternative evidence of technical leadership in the form of patents and/or software products.</p>
22	Centre for Semiconductor Technologies (SemiX)	<p>(1) Qualifying degree: PhD in an area of semiconductor engineering (background/degree may be in any engineering or physical science discipline) with at least 1 year of post-PhD experience (preferably in the industry); for candidates with PhD in adjacent areas, at least 2 years of post-PhD experience in some area/s of semiconductor engineering (preferably in the industry).</p> <p>(2) Publications: At least 3 research publications in reputed journals included in Scopus/SCI index, as first author, or with equivalent contribution; additionally, an average of 1 such publication is desirable for each year of post-PhD experience beyond 1 year. The following equivalence would be applied for publications, in this and the following senior levels:</p> <p>(a) First author archived publications in the following conferences would be considered equivalent to a journal</p>

Sr. No.	Academic Unit	Eligibility Criteria for Assistant Professor
		<p>publication: IEDM, Symposium on VLSI Tech & Circuits, ISSCC, CICC, ISPSD, IEEE MEMS, ECTC, IRPS, IRW, IMW, NeurIPS, IJCNN.</p> <p>(b) A granted or published patent in a relevant area, in which the candidate is listed as an inventor, would be considered equivalent to a journal publication.</p>
23	Centre for Systems and Control Engineering	<ul style="list-style-type: none"> ● Candidates need to have a minimum of 3 publications accepted in journals indexed in INSPEC/Scopus/SCIE and/or abstracted in Mathscinet. ● In addition to the above minimum specified, the candidates need to have an average of at least 1 publication for every year after their first full year after Ph.D. that are accepted in journals indexed in INSPEC/Scopus/SCIE and/or abstracted in mathscinet. <p>Each patent granted will be counted as equivalent to two journal publications and each patent filed will be counted as equivalent to 0.5 journal publications for the above criteria.</p>
24	Centre for Technology Alternatives for Rural Areas (C-TARA)	<p>Faculty applicants should have demonstrated interest and ability to: (i) identify and formalise problems of relevance to broader society, and (ii) teach in the area of technology and development.</p> <p>The candidates should have strong focus on Science and Technology applications towards sustainable development using concepts in the following thematic areas:</p> <ul style="list-style-type: none"> ● Food processing, Nutrition, and Public Health ● Farm Machinery, Technology Development and Dissemination ● Development, Technology, and Society ● Planning and Development including Basic Services; Monitoring & Evaluation ● Natural Resources, Public Policy and Governance <p>The candidates should have high quality research experience, evidenced by publications in reputed journals/conferences, book chapters, patents (filed and granted) and important case studies.</p> <p>The candidates should have a minimum of THREE (3) publications in reputed international journals (Scopus/SCI indexed).</p>
25	Centre for Traditional Indian Knowledge and Skills (CTIKS)	<p>Candidates must possess well-established credentials in their chosen discipline (Engineering / Pure and Applied Sciences / Arts / Medicine / Design / Architecture / Management / Finance) in terms of high-quality journal publications / peer-reviewed conference proceedings / book chapters / monographs / patents.</p> <p>Further, candidates should have good working/proven knowledge in Sanskrit and demonstrable research experience in the advertised areas of specialization. Exceptional candidates with research experience in other specific areas of Traditional Indian Knowledge and Skills may also be considered.</p>

Sr. No.	Academic Unit	Eligibility Criteria for Assistant Professor
26	Centre of Studies in Resources Engineering (CSRE)	<p>The candidates should have research specialization in geoinformatics, remote sensing and their applications to earth system studies and related areas.</p> <p>Candidates should have a minimum of THREE (3) publications in Scopus/SCI-indexed journals. Patent(s) granted and Book(s) published will be considered equivalent to journal publications.</p>
27	Koita Centre for Digital Health (KCDH)	<p>Candidates should have a minimum of 3 publications in reputed journals or conference proceedings.</p> <p>Criteria for Reputed Journals or Conference Proceedings: Inclusion in Scopus/SCI index, MathSCI, SciMajor index, Core Ranking (B or higher), ABDC list (for economics, statistics), medical journals with high impact factor.</p> <p>Candidates must have 1 or more years of post-Ph.D. experience. Candidates should have on average 1 publication per year of post Ph.D. experience in addition to the above minimum specified;</p> <p>Papers published during/based on Ph.D. work can also be counted towards this number. Up to 5 years of work in healthcare organization or hospital or industry that do not offer scope for publication may be exempted from the additional (post-Ph.D.) publication requirements.</p> <p>Granted patents of exceptional quality in the Healthcare or Bio domain can be counted as equivalent to 2 publications. Every other granted patent will be counted as a single publication. Work which is repeated across patents and publications will not be doubly counted.</p>
28	Motilal Oswal Centre for Capital Markets	<p><u>Assistant Professor Grade I & II</u></p> <p>Educational Qualifications: Ph.D. with a first class or equivalent (in terms of Grades) in the preceding degree in the relevant discipline (Financial Markets, Financial Economics, Finance, Banking, Insurance, Financial Analytics, Fintech, Application of AI/ML in Finance, etc.) and a good academic record throughout. The candidates applying for a faculty position in Accounting should have CA with Ph.D. in Accounting or Finance.</p> <p>Experience:</p> <p>Assistant Professor Grade I A minimum of three years of post-Ph.D. teaching/ research/ professional experience, excluding the experience gained while pursuing Ph.D. The candidate should have demonstrated research capabilities in terms of publications in reputed journals and</p>

Sr. No.	Academic Unit	Eligibility Criteria for Assistant Professor
		<p>conferences.</p> <p>Assistant Professor Grade II</p> <p>Candidate satisfying all criteria of Assistant Professor Grade I, except the post-Ph.D. experience criterion, may be appointed as Assistant Professor Grade II with appropriate pay based on the number of years of post-doctoral experience.</p> <p>Publications: Candidate should have published a minimum of 3 papers in reputed journals, of which at least 1 in B or higher-level journals listed in ABDC, ABS journal list (level 2 and above).</p>
29	Desai Sethi School of Entrepreneurship	<p>(i) 4-year Bachelor's degree in any branch of Engineering or Technology or Design or Economics, or Master's degree in Design, Management or Arts/Sciences.</p> <p>(ii) Ph.D degree with research focused on one or more of the areas of specialization advertised.</p> <p>(iii) Work experience in a technology startup company, innovation/incubation centre, or new product development in industry will be appropriately evaluated.</p> <p>(iv) At least two publications/case studies/patents in the advertised specialization areas (Scopus/SCI-indexed journals, HBS/Ivey cases, or granted patents).</p>
30	IDC School of Design	<p>Qualifications and Experience Criteria for</p> <p><u>Assistant Professor Grade I:</u> A postgraduate Degree or Diploma in Design / Arts / Applied Arts, or a postgraduate Degree in Engineering / Architecture / Humanities or equivalent is required for all candidates. For candidates with a Ph.D., the qualifications and experience criteria are as per Institute General Eligibility Criteria. For candidates without a Ph.D., a minimum of 8 years of teaching / research / professional experience is required. However, such candidates will be required to obtain their Ph.D. within 5 years from the date of joining IIT Bombay.</p> <p><u>Assistant Professor Grade II:</u> Candidates with a Ph.D. satisfying all criteria of Assistant Professor Grade I, except the post-Ph.D. experience criterion for Assistant Professor Grade I, may be appointed as Assistant Professor Grade II with appropriate pay based on the number of years of postdoctoral experience. Candidates without a Ph.D. satisfying all criteria of Assistant Professor Grade I, except having only 5+ years of teaching / research / professional experience, may be appointed as Assistant Professor Grade II with appropriate pay based on the number of years of experience. After satisfying the experience criteria required for Assistant Professor Grade I, they will be moved to Assistant Professor Grade I.</p>

Rolling Advertisement No. L-10/25-26
Associate Professor and Full Professor Eligibility Criteria

Sr. No.	Academic Unit	Eligibility Criteria for Associate Professor and Professor
1	Aerospace Engineering	<p><u>Associate Professor</u></p> <p>Publications criteria (overall and Assessment Period)- Candidates should have, in total, a minimum of eleven publications in SCI indexed journals and SCI/Scopus indexed conference proceedings.</p> <p>Out of the above, the candidates must have a minimum of six publications in SCI indexed journals and SCI/Scopus indexed conference proceedings, of which at least three should have been published in Scopus/SCI-indexed journals during the assessment period (Assistant Professor or equivalent position).</p> <p>Teaching experience: Candidates should have been involved in academic training activities (e.g. short-term courses, guiding masters' and doctoral students, supervising interns or any other similar activity). In addition, candidates should demonstrate willingness and ability to participate in the UG teaching of the department in at least two core courses.</p> <p>Masters' Project guidance: Candidates should have guided at least six Master's students during the assessment period.</p> <p>Ph.D. guidance: Candidates should be the supervisor/ co-supervisor of at least one Ph.D. student, who has either graduated or is in an advanced stage. Advanced stage is when the student has completed pre-synopsis or has at least one publication produced from the doctoral work.</p> <p>The criteria of Master's and Ph.D. guidance of students may be relaxed for candidates with excellent research records, if they are from industry/research labs/non-Ph.D. granting academic institutions.</p> <p><u>Professor</u></p> <p>Publications criteria (overall and Assessment Period): Candidates should have, in total, a minimum of twenty one publications in SCI indexed journals and SCI/Scopus indexed conference proceedings.</p> <p>Out of the above, the candidates must have a minimum of ten publications in SCI indexed journals and SCI/Scopus indexed conference proceedings, of which at least five should have been published in Scopus/SCI- indexed journals during the assessment</p>

Sr. No.	Academic Unit	Eligibility Criteria for Associate Professor and Professor
		<p>period (Associate Professor or equivalent position).</p> <p>Teaching experience: Candidates should have been involved in academic training activities (e.g. short-term courses, guiding masters' and doctoral students, supervising interns or any other similar activity). In addition, candidates should demonstrate willingness and ability to participate in the UG teaching of the department in at least two core courses.</p> <p>Masters Project guidance: Candidates should have guided at least fourteen Master's students during the assessment period.</p> <p>Ph.D. guidance: Candidates should be the supervisor of at least two Ph.D. students who have graduated or should have graduated one student and another should be in advanced stage. Advanced stage is when the student has completed pre-synopsis.</p> <p>The criteria of Master's and Ph.D. guidance of students may be relaxed for candidates with excellent research records, if they are from industry/research labs/non-Ph.D. granting academic institutions.</p>
2	Biosciences & Bioengineering	<p><u>Associate Professor</u></p> <p>Publications: Candidates with research work in biosciences should have a minimum of SEVEN (7) original refereed international publications in Scopus / PubMed / Web of Science (or equivalent) indexed journals. Out of these 7, (i) a minimum of FIVE (5) publications must have been published as first author or as first author with equal contribution and (ii) a minimum of TWO (2) publications must have been published as corresponding / co-corresponding author while the candidate was holding a position at the Assistant Professor (or equivalent) level.</p> <p>Candidates with research work in biomedical engineering should have a minimum of FIVE (5) original refereed international publications in Scopus / PubMed / Web of Science (or equivalent) indexed journals. Out of these 5, (i) a minimum of THREE (3) publications must have been published as first author or as first author with equal contribution and (ii) a minimum of TWO (2) publications must have been published as corresponding / co-corresponding author while the candidate was holding a position at the Assistant Professor (or equivalent) level.</p> <p>A granted patent may be considered as equivalent to an original research publication in Scopus (or equivalent) indexed journals.</p> <p>A full paper in an international peer-reviewed conference</p>

Sr. No.	Academic Unit	Eligibility Criteria for Associate Professor and Professor
		<p>proceeding of a reputed professional society may be considered as equivalent to an original research publication in Scopus (or equivalent) indexed journals. Development efforts (technology, product, process, protocols, etc.) that have reached a stage of maturity viz., peer-reviewed demonstration of proof-of-concept e.g., in the form of acceptance by a funding agency or an industry for enhancement of Technology Readiness Level (TRL), deployment, etc., may be considered as equivalent to an original research publication in Scopus (or equivalent) indexed journals.</p> <p>Masters' Project guidance: Candidates should have guided as supervisor a minimum of three (3) M.Tech/M.Sc students while the candidate was holding a position at the Assistant Professor (or equivalent) level.</p> <p>Ph.D. guidance: The candidate should be guiding / have guided as supervisor a minimum of two (2) Ph.D. students. Out of these two students, the candidate should be the supervisor of at least one Ph.D. student, who has either graduated or is in an advanced stage. Advanced stage is when the student has completed pre-synopsis or has at least one (1) publication produced from the doctoral work.</p> <p>Co-supervision of M.Sc/M.Tech/Ph.D. would be counted as ½ of supervision.</p> <p>The criteria of supervision of Ph.D./Masters students and teaching at higher educational institutions may be relaxed for candidates who are from industry or Institutes / organizations which do not offer Ph.D. / Masters programs.</p> <p><u>Professor</u></p> <p>Publications: Candidates with research work in biosciences should have a minimum of THIRTEEN (13) original refereed international publications in Scopus / PubMed / Web of Science (or equivalent) indexed journals. Out of these 13, (i) a minimum of FIVE (5) publications must have been published as first author or as first author with equal contribution and (ii) a minimum of EIGHT (8) publications must have been published as Corresponding / Co-corresponding Author; a minimum of SIX (6) of these EIGHT (8) publications as corresponding / co-corresponding author must have been published while the candidate was holding a position at the Associate Professor (or equivalent) level.</p> <p>Candidates with research work in biomedical engineering should have a minimum of ELEVEN (11) original refereed international publications in Scopus / PubMed / Web of Science (or equivalent) indexed journals. Out of these 11, (i) a minimum of THREE (3) publications must have been published as first author or as first author with equal contribution and (ii) a minimum of EIGHT (8)</p>

Sr. No.	Academic Unit	Eligibility Criteria for Associate Professor and Professor
