A citizen of a country is an individual recognized under the custom or law as being a legal member of a sovereign nation or allegiance to a government in exchange for its protection, whether at home or abroad. A citizen is one of the dominant pillars of the country. They are entitled to enjoy all the legal rights and privileges granted by a state to the people encompassing its constituency and are obligated to obey its laws and to attain his or her duties as called upon. We are all a citizen of our country and retain several rights and responsibilities towards our community, state, and country. Each citizen has a responsibility to make his or her community a decent place to inhabit. When you are a responsible citizen, it implies that you know your duty adequately and will volunteer for numerous things that are required by the community or the society in general. The participants have tried to convey this message through their artwork.
